

Steve Lampron Engineer

Education

B.Eng (1998)

Dip. Project Management (2008)

Professional Societies

Member Australasian Institute of Mining and Metallurgy

Recent Employment Record

Director, Auralia (Present)

Consultant Engineer, LQS (2008 – 2009)

Mining Engineering Roles, Placer Dome/Barrick (2005-2008)

Mine Surveyor, Placer Dome (Paddington) (2004-2005)

Geology Crew, Placer Dome (Musselwhite) (2002-2004)

GMP Skills

Whittle (Expert)

Surpac (Advanced)

MapInfo (Intermediate)

Mine Works Planner (Intermediate)

About Steve

Upon graduating from Lakehead University in Canada in 1998, Steve jumped straight into diamond drilling, working as an assistant and then driller for 2 years before moving onto the Geology Crew at Musselwhite carrying out collar layouts and pickups both surface and underground, including use of the maxibore RMI for Placer Dome. Arriving in Australia in 2004, Steve initially worked as a Mine Surveyor; he then accepted a position as a Drill and Blast Engineer which then evolved into a role as a Mine Planning and Production Engineer on the Paddington Mine Site. Steve then moved into consulting and has since either led or played a major support role for projects around the globe carrying out all levels of mining and feasibility studies with various commodities.

Being French Canadian, Steve is fluent in both English and French.

Recent Consulting Task History

Care Minerals Leygin Project. Conceptual Mining Study
Catalpa Resources Mining Engineering Works
CGA Mining Mkushi BFS
Crescent Gold Mine Planning Works, Whittle & Surpac Training
Denison Mines Mutanga Uranium Project. Internal Reviews and Optimisations
Emeco Fleet Configuration Scheduling
Glengarry Resources Maitland Copper Project Sale Mining Study Review
Integra Mining Engineering Manager
Iron Ore Holdings Cost Modelling Reviews
Mantra Resources Life of Mine Scheduling. PFS Works
Millennium Minerals Nullagine Project BFS Update
Nordic Mines Laiva Gold Project PFS and BFS
Norton Gold Fields Varying Levels of Mining Studies, On Site Trainer
Padaeng Industry Optimisation and Detailed Scheduling Works
Rio Tinto Three Springs Project Detailed LoM Schedule
Signature Minerals Konogo Project
Solway Resources Asera Nickel Project, First Pass Works
